# Abdulahmed Abdulhakeem

Back End Engineer @ D'Accubin | Software Developer  
Shomolu, Lagos State, Nigeria

## Summary

As a back-end engineer, I have over four years of experience working on scalable web app architectures and infrastructure, building and supporting SaaS and PaaS solutions for various industries and domains. My mission is to deliver high-quality, reliable, and secure web services and applications that meet the needs and expectations of our clients and users.

My core competencies include PHP, Python, C#, AWS, GCP, cloud computing, ETL/ELT, CI/CD, and microservices. I have a strong grasp of object-oriented programming, MVC pattern/framework,DDD, TDD, and data modeling. I am proficient in using HTML, CSS, JavaScript, jQuery, Ajax, JSON, RESTful APIs, JWT, OAuth2, MySQL, PostgreSQL, Java, Hibernate, MongoDB, and various tools and platforms. I am also passionate about learning new technologies and sharing my knowledge and skills with others through online/offline training. I have excellent communication and presentation skills, and I enjoy working with a diverse and collaborative team.
