Fortunate Omonuwa

Software Engineer || C#|| ASP.NET Core || Javascript
Lagos State, Nigeria

Summary

Fortunate is a result-driven and enthusiastic technology professional
with a drive to create cutting-edge solutions.

I am experienced in developing and maintaining web applications
using the .Net framework and JavaScript. Great team player, quick
learner, and problem solver always seeking new challenges and
ways to improve my skill set and bring value to any organization.
When I'm not coding, you can find me playing video games, reading
comics/books, experimenting with new recipes in the kitchen,
listening to music, playing the drumkit, or catching some well-
deserved rest.
