Kolade Afeez

Senior Software Developer @ KLAR | .NET, C#, Javascript, ReactJs
Abuja, Federal Capital Territory, Nigeria

Summary

As a software developer at KLAR, I apply my software develppment
skills and web development expertise to create innovative and user-
friendly solutions for various clients.I enjoy collaborating with a
diverse and talented team of engineers and designers. Previously,
I worked as a software developer at instiQ, and as a software
engineer at Sterling Bank Plc for two and a half years, where I
gained valuable experience in developing and maintaining web
applications, databases, and APIs. I have a nano degree in cloud
devops from Udacity, and a BSc in mathematics from Federal
University Lokoja. I am proficient in web development,C#, ASP.NET,
JavaScript, and various cloud technologies. I am passionate about
learning new skills, solving complex problems, and delivering quality
products that meet the needs and expectations of the users.
